*(Default Selection are **BOLD**)*

SMACNA Series Gutter System: Available in a standard 6" size with custom sizes available. These commercial gutter systems are based on a heavy duty interior strap assembly with optional support bracket. The gutter sections are manufactured in 10' lengths pre-notched and punched to receive fasteners. Gutter sections are tapered for a telescoping 1" lap joint that is field drilled, sealed, and riveted. Gutter Hardware Package includes joint sealants, stainless screws, and aluminum rivets (unpainted).
