**Similar to the Standard Press-Loc Gravel Stop**  
**Model PLGS-6.0 tested to meet**  
**ANSI/SPRI/FM 4435/ES-1 and RE-2**  
**Standard Requirements**

**Designer Series Press-Loc Gravel Stop, Model PLGS.CC1-6:** Press-Loc is designed to accommodate the rigid performance criteria of today's advanced roofing systems. It doesn't matter if your roof membrane is E.P.D.M., Thermoplastic, Modified Bitumen, or a Built-up Roof, Press-Loc fits them all. Press-Loc allows you to install your metal edging to be flashed in accordance with your membrane manufacturer's specifications. The Secure Bar profile fully encapsulates your membrane ensuring a watertight and leakproof edge. Press-Loc's unique and simple design make installation fast and economical, while giving you a leak-proof gravel stop edge that is extremely resistant to wind uplift.
